CORONAVIRUS

# As coronavirus death count rises, Florida nursing homes still face testing challenges

By SKYLER SWISHER

SOUTH FLORIDA SUN SENTINEL | APR 28, 2020 | 7:07 PM

ASCP and AMDA – The Society for Post-Acute and Long-Term Care Medicine represent pharmacists, medical director providers and professionals in the skilled nursing home and senior care environments. Using publicly available information states and information sourced by members of these organizations, a general heat map has been created at a zip code information is being provided to the public for use in identifying hot spots within the skilled nursing home industry. Respiratory PPE, medications, supplies and personnel may be allocated or positioned based on information from this heat map.

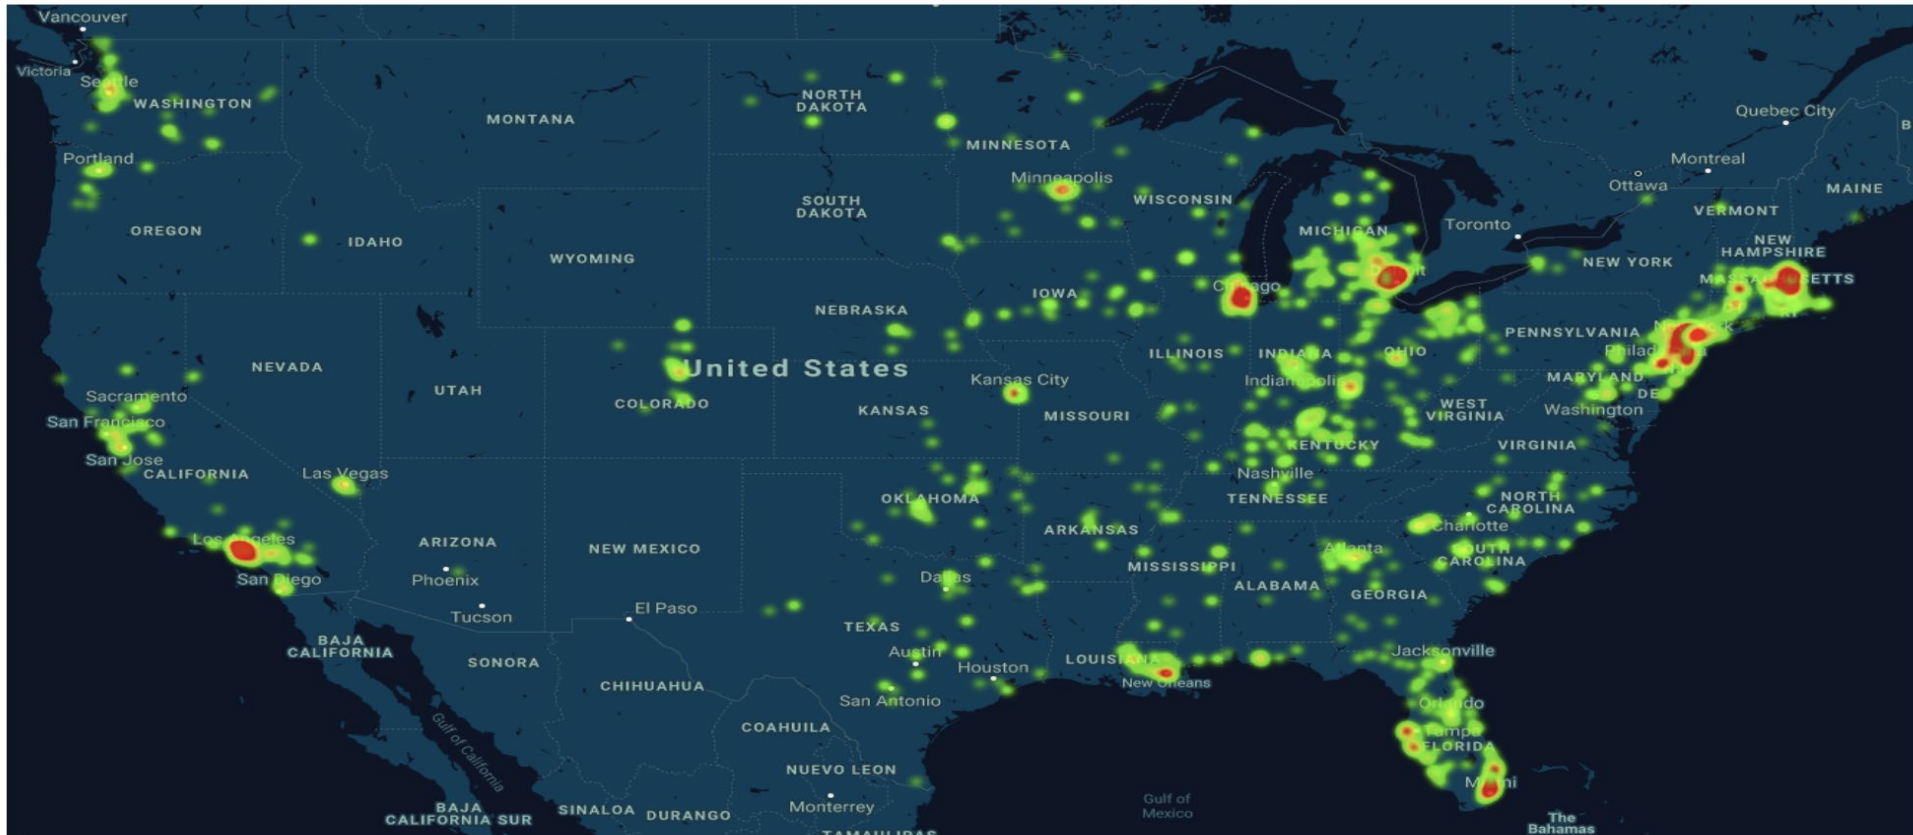

### **Heat Map Data Entry**

Please help us identify nursing homes with COVID positive cases. Nursing homes will not be identified by name. Once you find a list of homes for your area, use CTRL (or COMMAND on a Mac) F to open a search box and search by zip code or facility

<https://www.ascp.com/page/heatmap>

*Last updated: 04/28/2020 4:30PM ET*

ASCP and the AMDA – The Society for Post-Acute and Long-Term Care Medicine represent pharmacists, medical directors and health care providers and professionals in the skilled nursing home and senior care environments. Using publicly available information released by states and information sourced by members of these organizations, a general heat map has been created at a zip code level. This information is being provided to the public for use in identifying hot spots within the skilled nursing home industry. Resources in terms of PPE, medications, supplies and personnel may be allocated or positioned based on information from this heat map.

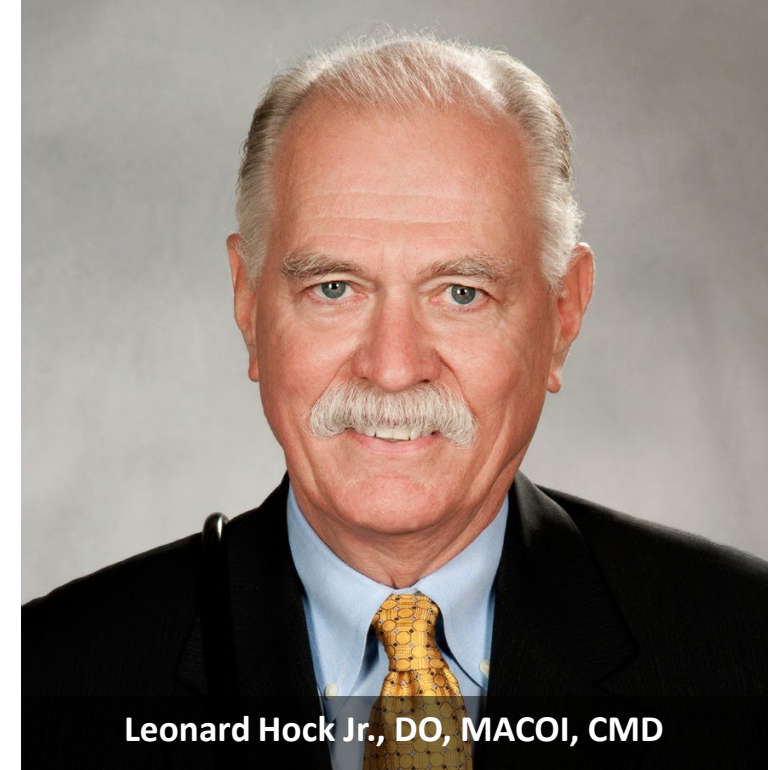

Currently, the following state health departments are not releasing skilled nursing home specific information: AZ, NC, TX, NH, WI, UT, ID, NM, MS, HI, AK, NY (fatalities only)
